

STORY

The strange dreams!

About recycling

By: Paula Lopez, Valeria and Miguel

CHARACTERS- Alice, Scarlet and John

STORY

Scarlet was playing with her friends, John and Alice, in the park. She was eating chips; when she finished, she threw the bag to the green container (glass container).

-Don't throw that to the green container! - said John

-You must throw it to the yellow container- said Alice

-But... why?-said Scarlet - all are containers!!!

-No, because the green container is for glass, you must throw it to the yellow container that is for plastic- said John

At night, Scarlet went to sleep. She dreamt about the afternoon in the park. In the dream a plastic bag appeared, her plastic bag. The bag started to talk:

-It is very important to look after the environment because then your sons and daughters won't be able to have the same world as you have.

When Scarlet woke up, she thought "it isn't important because I don't have sons or daughters"

That day Scarlet did the same as the other day, and at night she dreamt about the same. This occurred all the week, and the next week, and the next...

In the third week, Scarlet decided to tell it to her friends.

- It's normal- said Alice- because you aren't recycling and very deep into yourself you feel that you have to recycle.

-It's impossible- said Scarlet

But Scarlet didn't only dream about it, but then she saw her rubbish talking to her. Now she thought that she was crazy!

Scarlet was scared, she now could think clearly. She was going to start to recycle.

At that moment she opened her computer and wrote in Google: recycle. She read:

- ✓ Glass- green
- ✓ Paper- blue
- ✓ Plastic-yellow
- ✓ Organic rubbish-grey
- ✓ Metal, batteries- recycling centre
- ✓ Things in good conditions (like clothes)-charity shop
- ✓ Rest of gardens-garden compost

Now she loves recycling and she thinks that her daughters or sons are going to have a perfect world

Moral- If you recycle, you and your sons and daughters, your grandsons and granddaughters... will live better!
